EDUCATION

Sri Venkateswara College of Engineering

2025 - 2029

B.Tech Artificial Intelligence & Data Science

CERTIFICATIONS

- IITM Pravartak Certication on AI_ML using Python

SKILLS

- Programming: Python, C, C++
- Web: HTML, CSS, JavaScript, React
- Database: MySQL, SQL
- Python/Data: NumPy, Pandas, Data Analysis
- Tools: Git, GitHub, VS Code
- Areas of Interest: Machine Learning, Artificial Intelligence, REST APIs, Backend Development

PROFILE

B.Tech Artificial Intelligence and Data Science student with a strong interest in Python development, data analysis, and AI-based applications.

Familiar with Python, SQL, and database management, with hands-on academic project experience. Interested in building practical software solutions, automation tools, and data-driven applications.

PROJECTS

Automated Teller Machine Management System

Python | MySQL

• Developed an ATM management application using Python and MySQL.

• Implemented account management, balance checking, deposits, withdrawals, and transaction handling. Used database connectivity to store and retrieve.

UPI Transaction Scam Detection – Project Concept

Python | AI/ML | Data Analysis

• Designed a smart transaction-analysis concept to identify potentially suspicious UPI transactions.

• Planned transaction-pattern analysis and risk warnings before payment completion.

• Explored how data analysis and machine learning could support fraud risk detection.
